A. Goal 1.1 Advance faculty excellence in teaching, scholarship, and service	In AY 2018-19, the College of Arts & Sciences (CAS) plans to continue our well-established practice of recruiting, mentoring, and retaining outstanding faculty of diverse backgrounds.	In AY 2018-19, CAS plans to conduct 4 (four)tenure-track faculty searches. Following the clear directives from the president, the provost, and the CAS Dean, the search committees in question will make sure that the interview pool in all these searches is racially and ethnically diverse.	In AY 2018-19, using an RCM-based process, the CAS Dean will engage the 21 department chairs and program coordinators in the College of Arts & Sciences in assessing the needs and aspirational goals of the college’s departments and programs. Based on this information, the dean will submit his request for tenure-track lines to the provost as a communal decision equitably representing all departments and programs in the college.	CAS plans to conduct 4 (four) searches in AY 2018-19: 1. Chemistry 2. Modern Languages 3. Computer Science 4. Sociology	For AY 2018-19, CAS will aim for 4 new hires, out of 4 searches. It is important to note that we will do our very best to make sure that the finalists in this year’s searches are members representative of minority and international groups and as such will contribute significantly to our institution’s richly diverse ethnic and cultural tapestry.	Need to start search process much earlier, i.e., by September 1st. In the past few years, some CAS searches failed because all qualified finalists had accepted positions elsewhere, usually before April.
B. Goal 1.1 Advance faculty excellence in teaching, scholarship, and service	Enhance support for scholarship.	Increase the level of released time opportunities from CAS Dean’s Office for faculty research, especially for junior faculty. These released time awards are being given to junior faculty in CAS in direct response to Central Administration’s emphasis on the systematic pursuit of research and scholarship. Junior faculty in CAS are regularly being instructed by the dean and associate deans to devote the required time and attention to produce tangible	Using e-mail notifications on a regular basis, the CAS Dean’s Office has been actively engaged in informing the junior and senior faculty in CAS about the many opportunities for released time for research, which include: 1. Released Time for research from the CAS Dean’s Office.	Keeping up with past practice, CAS plans to award at least up to 45 credits of released time for research to junior faculty in Fall 2018 and Spring 2019. Also keeping up with past practice, up to 20 credits of released time will be awarded in CAS for research to senior faculty in Fall 2018 and Spring 2019.	The process has been streamlined, enhanced, and improved through the development of specific criteria and the application of equitable, transparent, and measurable rubrics to review and evaluate all requests for released time for research. Regular and ongoing academic and administrative program assessment is a continuing process in CAS. This practice is designed to monitor and improve all aspects of our operation. In addition, the application of clear	Continue to apply criteria for applicants so that outcomes are equitable, transparent, and measurable, and the results are showcased in a public forum. All faculty awarded released time for research will have to comply with the following: <u>Criteria:</u> Any faculty member in the College of Arts & Sciences, whether junior (untenured) or senior (tenured), requesting

		<p>proof of an established and ongoing research agenda to enable them to be successful when they come up for tenure.</p>	<ol style="list-style-type: none"> 2. Released Time for research from the provost's office (SBR). 3. Grants opportunities information from the Grants Office. 		<p>and coherent criteria and rubrics to review and evaluate all competitive processes in CAS adds a much-needed level of transparency and uniformity to these processes. It also enables us to assess these activities objectively and evenhandedly over time, detecting trends, making the required adjustments, and taking the appropriate corrective measures needed to keep these processes meaningful, viable, and precise.</p> <p>In addition to having clear expectations, we apply a specific rubric — a standard set of qualitative and quantitative evaluation criteria — to the present review and evaluation process. The rubric we have developed to review and evaluate applications for released time for research helps us make explicit, objective, and consistent the criteria for performance, which otherwise would be implicit, subjective, and inconsistent if only isolated opinions were used as an indicator of quality. This rubric delineates as objectively as possible what content, knowledge, skills, and behaviors are indicative of various levels of mastery and excellence in response to the criteria informing and guiding the process. By using this model, we believe the end product will be a more efficient,</p>	<p>released time for research or scholarly purposes will need to submit the following materials in order to be considered:</p> <p><u>Before completion of the project</u></p> <ol style="list-style-type: none"> 1. A detailed description of the research project, outlining clearly why the faculty member should be granted the released time requested. 2. A detailed description of the outcomes / deliverables, along with a timeline & work plan, outlining clearly the benefits the proposed research project will bring to the faculty member, to his/her department, and to the students at NJCU. If applicable, the faculty member should provide a detailed budget as well, outlining a reason or rationale for each budget item and explaining in detail how these items are essential for completion of the project. <p><u>After completion of the project</u></p>

					accurate, and equitable method to review and evaluate released time applications for research.	3. A detailed report, after the research project has been completed, outlining clearly how the outcomes / deliverables described in #2 above (in this column) were completed and accomplished.
A. Goal 1.2 Develop and offer academic programs of the highest quality	During AY 2018-19, CAS will continue to overhaul, restructure, and streamline the following programs in the College of Arts & Sciences with the goal of making them more efficient, better enrolled, and more responsive to student and societal needs: 1) Modern Languages; 2) Media Arts; 3) Computer Science; 4) Latin-American Studies; and 5) African-American Studies. With these proposed changes, we will eventually be able to grow these programs to the	<p>Modern Languages: 1) will offer heritage language course in Spring 2019 in Arabic and Spanish; 2) will offer Spanish for Nursing (Spanish for Business is already being offered) in Spring 2019; 3) two new Gen Ed courses to be offered in Fall 2018.</p> <p>Media Arts: We have begun discussions on how to increase and maintain enrollment in Media Arts, especially in the graduate MFA program.</p> <p>Computer Science: We have begun discussions on how to diversify offerings in Computer Science and be more responsive to cutting edge technological demands, such as computational sciences and cyber defense & security.</p> <p>Latin-American Studies:</p>	<p>The CAS Dean's Office has been working closely with the department chairs and faculty from Modern Languages, Media Arts, Computer Science, Latin-American Studies, and African & African-American Studies to devise curricular and marketing strategies with the following goals in mind:</p> <ol style="list-style-type: none"> 1. To increase the number of majors and minors in these programs. 2. To increase the total number of students taking courses in these programs. 3. To improve retention and graduation rates in these programs. 	<p>Modern Languages: Several new Gen Ed courses were written and submitted for temporary course approval this past year, and will be offered in Fall 2018 and Spring 2019.</p> <p>Media Arts: We are pursuing the possibility of offering teaching assistantships to graduate students. This would entail free tuition, in exchange for graduate students each teaching two courses per year.</p> <p>Computer Sciences: We are in discussions as to how we can add Computational Biology, Chemistry, and Physics to the current Computer Science offerings. We are also in talks with the Cyber Security Program in CPS to expand this</p>	<p>In Fall 2017, the Modern Languages Department successfully offered two new Gen Ed courses. These courses were fully enrolled.</p> <p>Teaching assistantships have not yet been offered at NJCU; the Media Arts MFA Program must show an increase in their enrollment from the current 8 to the target of 20.</p> <p>We are not yet in a position to offer Computational Biology, Chemistry, or Physics due to the loss of a new hire in Computational Chemistry. A search for a new faculty member in this area will be undertaken in the upcoming academic years.</p> <p>Latin American Studies has made substantial progress in expanding its course offerings and running classes at near capacity.</p>	<p>Modern Languages will develop and offer heritage language courses in Arabic and Spanish, as well as Spanish for Nursing and other Spanish for specific purposes.</p> <p>Media Arts will need to consider offering a major/specialization in digital design in response to market demand, which could be a joint position with the Art Department.</p> <p>The two new hires in Computer Science, Dr. Nan Wang and Dr. Abhishek Verma, have been tasked with updating the curricular offerings in the department.</p> <p>In general, new hires in CAS need to be able to work across departments to create</p>

<u>Link to Strategic Plan:</u> Goal and objective from strategic plan	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
				African-American Studies: Under the guidance of the CAS Dean, the two AAS faculty have begun to restructure the AAS curriculum, and have submitted Gen Ed courses so as to make AAS offerings more appealing to a broader segment of the NJCU student body.		
B. Goal 1.2 Develop and offer academic programs of the highest quality	Increase the number of new programs.	For AY 2018-19, CAS plans to increase the number of new programs submitted and approved by the 21 departments and programs in the College of Arts & Sciences to at least 2 per year.	The CAS Dean's Office has been working closely with the department chairs and faculty in CAS to increase the number of new programs submitted and approved in the College of Arts & Sciences. We are especially interested in pursuing inter- and multidisciplinary initiatives such as: <ol style="list-style-type: none"> 1. Computer Sciences: Cyber Security and Defense 2. Chemistry: Computational Sciences 3. Sociology: Urban Studies 4. Earth & Environmental Sciences: GIS Minor 5. Women's & Gender Studies: Sexuality & Queer Studies 	Biology: BS with Concentration in Environmental and Organismal Biology. Exercising the required oversight, the CAS Dean was not able to approve this program as it was presented, and suggested some minor changes before it could be approved. The department preferred to withdraw the proposal altogether for now, and might submit it again at a later date. Biology: BS with Concentration in Molecular and Cellular Biology. Philosophy: Minor in Ethics.	NJCU is lagging behind compared to its sister institutions in New Jersey in new program development. The process is perceived by department chairs and faculty as being difficult and time-consuming, especially when the proposals for new programs reach the university senate, where they can linger needlessly for a long time, sometimes up to a year.	Make the process of writing new programs easier and more streamlined, and the approval time shorter. Holding regular workshops to clarify the process should prove helpful. The Fall 2018 implementation of Courseleaf digital curriculum approval will be an important step in the right direction. However, all stakeholders need to remain vigilant so that our curricular approval process is not too slow. This has been a serious problem in the past, and we must address and rectify this issue so that it cannot adversely affect our college's curricular initiatives and undertakings.

C. Goal 1.2 Develop and offer academic programs of the highest quality	Bringing together the policies and information from the <i>NJCU Faculty Handbook (2009)</i> , “NJCU Academic Affairs Decision-Making Criteria (2016),” the state-wide <i>AFT Agreement (2015-2019)</i> and “Other Locally Negotiated Agreements,” the CAS Dean’s Office has produced and continues to produce “Clarifications of CAS Procedures” in order to provide clear and uniform administrative guidance to the 21	Provide transparent and equitable administrative guidance to the 21 department and programs in the College of Arts & Sciences, as we aim to develop and offer academic programs of the highest quality. In addition to providing clear and uniform administrative guidance to the 21 departments and programs in CAS through our “Clarifications of CAS Procedures,” we also engage in regular and ongoing academic and administrative program assessment. This is a continuing process in the College of Arts & Sciences (CAS) and is a practice designed to monitor and improve all aspects of our operation. In addition, the application of clear and coherent criteria and rubrics to review and evaluate all competitive processes in CAS adds	In Spring 2018, the CAS Dean, working closely with the 21 department chairs and program coordinators in CAS, established the CAS Steering Committee. This committee serves to provide guidance and feedback to the CAS Dean’s Office on all academic, curricular, and administrative matters affecting the professional lives of all those individuals who work or study in the College of Arts & Sciences. The CAS Steering has been tasked to provide guidance and feedback to the CAS Dean’s Office, especially with regard to our clarifications of CAS procedures and rubrics. In order to better serve the department chairs and faculty in CAS, the CAS Dean relies on	To date, the CAS Dean’s Office has produced clarifications of CAS procedures to better inform several administrative processes in the College of Arts & Sciences.	The clarifications of CAS procedures referenced here were successfully put to use in AY 2017-18 to better inform several administrative processes in the College of Arts & Sciences.	These clarifications of CAS procedures are a work in progress, and should improve considerably with feedback from faculty and fellow administrators. For information on “closing the loop,” as far as these clarifications are concerned, please refer to D. Goal 1.2 below, where our action plan for continuous improvement is described in greater detail.

	departments and programs in CAS.	a much-needed level of transparency and uniformity to these processes. It also enables us to assess these activities objectively and evenhandedly over time, detecting trends, making the required adjustments, and taking the appropriate corrective measures needed to keep these processes meaningful, viable, and precise.	the advice and counsel from the Steering Committee, and tries to the extent possible to include their concerns and advice in the administrative documents we produce in CAS.			
D. Goal 1.2 Develop and offer academic programs of the highest quality	Following closely the policies and information from the <i>NJCU Faculty Handbook (2009)</i> , “NJCU Academic Affairs Decision-Making Criteria (2016),” the state-wide <i>AFT Agreement (2015-2019)</i> and “Other Locally Negotiated Agreements,” with the objective of providing clear and uniform administrative guidance to the 21 departments and programs in CAS, the dean’s office has	Provide transparent and equitable administrative guidance to the 21 department and programs in the College of Arts & Sciences insofar as our review and evaluation of full-time and adjunct faculty materials are concerned, as we aim to develop and offer academic programs of the highest quality.	In Spring 2018, the CAS Dean, working closely with the 21 department chairs and program coordinators in CAS, established the CAS Steering Committee. This committee serves to provide guidance and feedback to the CAS Dean’s Office on all academic, curricular, and administrative matters affecting the professional lives of those individuals who work or study in the College of Arts & Sciences. The CAS Steering has been tasked to provide guidance and feedback to the CAS Dean’s Office, especially with regard to our clarifications of CAS procedures and rubrics. In order to better serve the	To date, the CAS Dean’s Office has produced rubrics to review and evaluate several administrative processes in the College of Arts & Sciences.	The rubrics referenced here were successfully put to use in AY 2017-18 to better inform our review and evaluation of full-time and adjunct faculty materials, as we aim to develop and offer academic programs of the highest quality. These rubrics have proven very effective.	In order to “close the loop” insofar as these administrative clarifications and rubrics are concerned, we will continue to closely monitor their use and application. To that end, we will make the necessary adjustments to these instruments as we aim for continuous improvement and increasingly better KPIs. We will monitor and especially take into account faculty and department chair feedback as we analyze over time the results attained. These analyses will inform in a continuous feedback loop (plan / implement / assess results / modify) the way we use and apply these administrative instruments in CAS.

	<p>produced rubrics to review and evaluate several administrative processes in CAS.</p>		<p>department chairs and faculty in CAS, the CAS Dean relies on the advice and counsel from the Steering Committee, and tries to the extent possible to include their concerns and advice in the administrative documents we produce in CAS.</p>			<p>The above action plan for continuous improvement is an evidence-based and results-oriented practice to assure overall quality of the administrative instruments under review.</p> <p>With the above in mind, in the context of the inclusive, shared-governance environment that has been a hallmark of CAS — which involves full-time and adjunct faculty, department chairs, administration, and the AFT union in the College’s decision-making process — the results-oriented procedure referenced above refers to an assessment that is based both on the end product as well as the process that gave rise to the instruments under review. In an orthodox results-oriented action plan, generally the outcome is more important than the action taken to achieve that outcome. However, in our action plan, both the end product as well as the process itself are equally relevant, as they inform one another, in a continuous feedback loop, as described above.</p>

Goal 2, Objs. 2 & 4	Increase NJCU School of Business enrollments from AY 2017-2018 to AY 2018-2019.	5% increase in enrollments from AY 2017-2018 to AY 2018-2019.	<p>Consistent outreach to DNRs.</p> <p>Increase recruitment of high school, community college and international students through articulation agreements and MOUs.</p> <p>Offer additional course sections if needed.</p>	From AY 2017-2018 to AY 2018-2019, enrollments in the SoB decreased for undergraduates by 3.8% and increased for graduate students by 1.6%.	All indicated strategies were pursued, but the results have fallen short of our goals.	<p>A significant increase in program-specific marketing must take place. Recently, the first NJCU program-specific digital advertising campaign took place from February-June 2019. The overall results were termed “excellent”. We will work with Advancement and Enrollment Management to support such efforts in future.</p> <p>We have stepped up joint marketing efforts with Graduate Admissions to offer unique recruitment events. These will be increased in number.</p>

New Jersey City University

<p>Goal 2, Obj. 4 Goal 4, Obj. 2</p>	<p>Increase contact and the number of articulation agreements with community colleges.</p>	<p>Complete and sign articulation agreements with two new schools.</p>	<p>Establish strong relationships with community college counterparts.</p>	<p>Several School of Business programs were included in the updated agreement with Brookdale Community College.</p> <p>A draft of a “Pathways to Finance” agreement with Hudson County Community College is under development, with anticipated completion in Summer 2019.</p> <p>Significant inroads have been made with partners at other community colleges, including but not limited to Middlesex, Ocean, and Bergen.</p>	<p>Articulation agreements have been prepared and signed.</p>	<p>Several pending articulation agreements were stalled in Academic Affairs during the last months of our former Provost’s term of office. Our new Provost has greenlighted the fast tracking of our pending agreements and several should be signed in the near future.</p>

Goal 4, Obj. 2 Goal 1, Obj. 3	Increase contact and the number of Memorandum of Understanding (MOU) and Articulation Agreements with International Universities with business programs.	Complete and signed MOUs / Articulation Agreements with at least two International Universities. Identify and set up meetings with International Universities with business programs that are interested in various types of programs and faculty / student exchange.	Invite them to the School of Business for a tour and to meet with faculty and students. Travel abroad to visit potential partner universities.	May 2019: Signed agreement for 2+2 with International University - Vietnam National University HCMC Draft under development to expand agreement with Assumption University (Bangkok, Thailand): Management, Marketing, Finance, Global Business. Visited with officials at Jilin University of Finance and Economics (China): under negotiations	Good progress continues to be made.	We recently visited John Cabot University in Rome, Italy and three institutions of Higher Ed in Ireland. We will continue to work with our International Office to reach such agreements and to recruit international students to the NJCU School of Business.
Goal 1, Obj. 2	Initiate AACSB process.	Membership in AACSB International obtained. Associate Dean to begin application in Fall 2018	Seek assistance for the Office of Institutional Effectiveness if needed. Hire new Associate Provost and faculty with AACSB experience	The initial application process has begun with receipt of the Eligibility Application.	Process has been initiated	A committee has been established to complete the application and consists of faculty volunteers across SoB departments, the Associate Dean (chair), and Program Specialist for Accreditation & Assessment (<i>ex officio</i>).

New Jersey City University

Goal 1, Obj. 1	Increase number of academically qualified faculty in the School of Business	Conduct successful searches for the following faculty positions: Accounting (2) Finance (1) Management (1) Marketing (1)	Advertise in diverse papers, websites, etc. to recruit qualified applicants. Conduct interviews in a timely manner to recruit potential faculty before they are hired elsewhere.	In Fall 2018, the percentage of student credit hours taught by academically qualified faculty surpassed ACBSP-prescribed thresholds at both the undergraduate (46%) and graduate (72.2%) levels, up from 44% and 56%, respectively, in AY 2017-2018.	We continue to successfully recruit new academically qualified faculty. We successfully completed four searches and one is pending completion.	We will continue in our efforts to attract a diverse pool of academically qualified faculty.

<p>Goal 1, Obj. 2 Goal 3, Obj. 2</p>	<p>Increase fundraising to secure significant gifts for additional programs and activities at the School of Business including naming opportunities.</p>	<p>Secure two significant gifts.</p>	<p>On-going effort to name the School of Business, including classrooms, etc. Raise matching funds for HBX Live virtual classroom/data science center. Reorient Advisory Board towards fundraising</p>	<p>We have raised commitments of \$560,000 towards the building of the virtual classroom. Construction is expected to begin in Fall 2019. We have replaced several members of the Board with active donors, and will be continuing to recruit new members.</p>	<p>Good progress has been made</p>	<p>We will continue to work with the SoB Director of Development to raise additional funds.</p>

Department/Program/College: Global Initiatives

Academic Year: 2018-19

Prepared by: Tamara Cunningham, AVP for Global Initiatives

Date: July 25, 2019

Link to Strategic Plan: Goal and objective from strategic plan	Outcome: Defined in observable, measurable language	Assessment/Measures and Target Performance Levels: The method used gather evidence/data	Strategies to Achieve Target Performance Level	Result: Data results	Analysis: Interpretation of meaning of data results	Action Plan: Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
<p>Strategic Plan Goal 2</p> <p>Achieve student success: academic, personal and social</p>	<p><u>Outcome 1</u></p> <p>Increase number of students who study abroad by 5%</p>	<p>Track number of students who go abroad through exchange, faculty led and other programs</p>	<p>Increase number of events to promote study abroad opportunities during the academic year, including tabling sessions, Study Abroad Fairs, and classroom visits</p>	<p>DID NOT MEET GOAL</p> <p>1. AY 18-19 Semester Abroad numbers were unchanged from AY 17-18: 11/11</p> <p>2. The number of faculty-led short programs was reduced from 5 in AY 17-18 to 3 in AY 18-19. The number of University-sponsored programs (Honors, etc.) was reduced from 4 to 3 due to funding issues.</p> <p>3. Interviews with prospective students indicated primary barrier to participation was funding, followed by availability of courses in major.</p> <p>4. Significant (100%) increase in enrollments for AY19-20 due to enhanced outreach</p>	<p>1. "Long view" is key to Study Abroad planning. Increased outreach during AY 17-18 and AY 18-19 to 1st year students and higher visibility on campus is showing results two years later.</p>	<p>1. The addition of a Faculty Liaison for Study Abroad has significantly enhanced outreach efforts and student response; 20 students (100% increase) are scheduled to participate in semester abroad in AY 19-20</p> <p>2. Continue increased outreach activities, including classroom visits, Study Abroad Fairs and Tabling Sessions, use of "Study Abroad Ambassadors", large posters and flyers throughout campus.</p> <p>3. Advocate for reinstatement of University-funded Study Abroad scholarships</p> <p>4. Promote development of broad-based trips to more affordable destinations; promote interdisciplinary collaborations.</p>

<p>Strategic Plan Goal 3</p> <p>Enhance resources and the University's capacity to achieve vision</p>	<p><u>Outcome 2</u></p> <p>Increase fee-paying international student enrollment by 10%</p>	<p>International student enrollment data</p>	<p>Detailed analysis of undergraduate and graduate application samples focusing on processing times, applicant compliance with requirements, follow up processes, deadlines, etc to identify areas for improvement</p>	<p>DID NOT MEET GOAL</p> <p>4% decline in matriculate new admits, 20% decline in new matric attending, 5% decline in admission yield and 4% decline in unduplicated total matriculate enrollment between AY 17-18 and AY18-19</p>	<p>1. Large number of new admits are from regions with high visa denial rates: East and West Africa, South Asia impacted yield.</p> <p>2. Anecdotally, significant number of new admits (approx. 20%) indicate insufficient funding to complete the I20 application process and request financial assistance.</p> <p>3. The majority of new admits who do not accept the admission offer do not provide a reason other than lack of funding; very few say they chose another school.</p> <p>4. What appears to be a high turnover in new students (excluding visiting students) is actually a reflection of the population, which is predominantly transfers and graduate students who attend 2-3 years; 1st year full time undergraduate enrollments are minimal.</p>	<p>1. Advocate for a merit-based tuition scholarship of between \$1000- \$3000/ semester to attract and retain top students</p>
---	---	--	--	---	---	---

					5. Historically, retention and graduation rates are high (+80%)	
Strategic Plan Goal 3 Enhance resources and the University's capacity to achieve vision	<u>Outcome 3</u> Develop at least 2 new additional revenue-generating activity with international partners	Track new international partnerships and revenue through MoUs and budgets	Collaborated with the Office of the Provost, the academic deans and the faculty to identify international revenue-generating initiatives			
Strategic Plan Goal 4 Strengthen NJCU identity, brand, reputation and connections						
Strategic Plan Goal 3 Enhance resources and the University's capacity to achieve vision	<u>Outcome 4</u> Complete second phase of ACE Internationalization Implementation Plan	Review ACE Internationalization Task List and ensure sub-committee chairs have completed phase 2 of their respective recommendations	Worked with ACE subcommittee chairs and larger ACE core group to implement the recommendations for phase I of the ACE plan	Goal on Hold The ACE Implementation Task Force began its work on Outcome 4, but the president asked the Task force to pause and consider applying for the ACE Lab 2.0, which is the second version of the strategic internationalization implementation plan.	Pending	NJCU has contacted ACE to register for the second part of the ACE Lab. ACE is convening a cohort for this next phase and the University will be included in the 2.0 cohort.
Strategic Plan Goal 3 Enhance resources and the University's capacity to achieve vision	<u>Outcome 6</u> Increase enrollment in American English Program to 50 students each semester	Track international student enrollment in AEP through PeopleSoft	Focus on customer relationship management. Respond within one working day and assign a personal advisor, follow-up to "sell" the program over our competitors, make phone call to anyone local (sometimes Skype with those overseas)...set follow-up	Met Goal Fall 2018 AEP Enrollment (54 students) Compared to 24 students in Fall 2017. Spring 2019 AEP Enrollment (63 students) Compared to 19 students in Spring 2018.	The American English Program collaborated with the Department of Professional Education and Lifelong Learning (PELL) to offer intensive English language classes. Working with PELL helped to significantly increase enrollment.	Collaborations with PELL will continue. Also, goals to increase AEP enrollment will be part of the international strategic plan each year. AEP will also benefit from the enrollment of joint degree students who need a pathway to degree courses. This steady stream of students will also increase enrollment.

			dates and follow-up 4 or 5 times.			
<p>Strategic Plan Goal 3</p> <p>Enhance resources and the University's capacity to achieve vision</p> <p>Strategic Plan Goal 4</p> <p>Strengthen NJCU identity, brand, reputation and connections</p>	<p><u>Outcome 7</u></p> <p>Increase opportunities for the Confucius Institute to partner with the community to promote Chinese Language and Culture</p>	<p>Track number of new opportunities and partnerships with community through agreements and contracts with the Confucius Institute</p>	<p>Establish new partnerships through Chinese language and cultural event activities</p>	<p>Met Goal</p> <p>The CI at NJCU partnered with Hudson Way Immersion Program, New Milford Board of Education, New Milford High School and PACE University. All of which are new partnerships for the 2018-2019 AY</p>	<p>These relationships are critical to the success and growth of the CI at NJCU, especially at this time when CIs are under fire by state legislators. Sharing the success stories of the CI at NJCU and collaborating with the Jersey City school system and institutions of higher education positions NJCU's CI as a viable resource for NJCU, the community and beyond.</p>	<p>The CI at NJCU will continue to strengthen relationships with new and existing partners.</p>

<u>Link to Strategic Plan</u>	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
Goal 1: 1 Goal 2: 1	To develop resources to support the new Community College Leadership program	Identify and acquire requisite educational resources to support student success in this program; establish Library liaison; participate in annual summer institutes	Meet with program co-ordinator; name a librarian as liaison; review relevant sources for databases and monographic literature; purchase	Have met with coordinator; named Sheila Kirven as liaison; have leased relevant databases and purchased both print and ebook volumes to support this program	The Library has taken proactive moves to establish support for this program	Continued acquisition of needed materials along with outreach to the program
Goal 1:1; Goal 2:1; Goal 3:3	Begin inventory of diverse archival materials now housed in one central location in the Library; expand collection with additional	Start with an accurate inventory of 1300+ yearbooks; examine for condition. Ask other offices on campus for material.	Develop a spreadsheet or other enumerative product.	A detailed inventory of this valued resource has been completed.	For the first time ever, we have a definite tally of the volumes we have collected from disparate sources.	We solicit other departments to see if they wish to donate yearbooks to our collection

New Jersey City University

<u>Link to Strategic Plan</u>	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
	material culled from other on-campus offices					
Goal 4:2	To have Library engage with University alumni by establishing an Alumni Book Collection	Count of volumes donated by alumni	Meet with Alumni Office to propose the creation of an Alumni Book Collection; process volumes as they are received; possibly hold “A Salute TO NJCU Alumni Authors”	Due to extenuating circumstances, this activity has been pushed off to the 2019/20 cycle		
Goal 1: 1	Replace Summon.	The number of “hits” that Summon replacement generates	Review alternate tools that will improve student access to numerous Library datyabases	The replacement for Summon has generated over 180,000 uses in less than a year	This tool has proven its effectiveness for a greatly reduced price	Continue to emphasize its use during bibliographic instruction classes.

New Jersey City University

Area: Office of Military & Veterans Services/Elaine Gargiulo & Randi Fontanez

Year: 2018-2019

<i>Link to Strategic Plan</i>	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
Achieving Student Success (Goal 2) and Enhancing Resources and the University's Capacity to Achieve Vision (Goal 3)	Increase knowledge, understanding and awareness of the Veterans population (Veterans, Service members, and their dependents) needs at the campus community level.	Number of services directed at the campus community, in order to facilitate a genuine understanding of needs will increase by at least 10 programs, while we continue to maintain the level of committed service we current provide to our student population	Continued tracking of the programs we offer throughout the year, including professional development for students, faculty & staff, as well as the opportunity to speak with individuals in our student population, allowing for increased support to this population.	Over the past year, the Office Military & Veterans Services participated in numerous activities (orientations, open houses, workshops, fairs, etc.) to engage the community, revamped our information flier to include in-depth information, engaged faculty, staff and students in a letter writing campaign to soldiers, participated in professional development to enhance the office's knowledge, and most importantly hosted it's first round of Military Competency Training, which launched during Veterans week of 2018, which put us well above our mark of increasing our programming by ten more events.	The Office of Military & Veterans Services met its goal of promoting veterans awareness throughout the campus community. We were able to expand/update the previous programs and measures we employ, as well as add new ones, such as the military competency training, army/navy information days, letter writing campaigns, and suicide awareness training (on our end). While the military competency training was an excellent presentation, it was unfortunately, not well attended by faculty, staff, and students (even with the promotion and outreach employed).	The office will continue to research and implement best practices to educate and support the NJCU community in our Veterans Awareness initiatives. The knowledge and support of the NJCU community is essential in the overall success of our student veterans' population, so we will continue to explore additional opportunities in getting our information across. For example, we attended two seminars on suicide prevention, which is something that should be shared with the NJCU community, as it is, unfortunately, a serious issue amongst our nation's heroes. In addition, will continue to research and implement best practices across the board.

facilitate academic and administrative excellence.					individual accomplishments.	

New Jersey City University

Area: PROFESSIONAL EDUCATION AND LIFELONG LEARNING

<i>Link to Strategic Plan</i>	<i>Outcome: Defined in observable, measurable language</i>	<i>Assessment/Measures and Target Performance Levels: The method used gather evidence/data</i>	<i>Strategies to Achieve Target Performance Level</i>	<i>Result: Data results</i>	<i>Analysis: Interpretation of meaning of data results</i>	<i>Action Plan: Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis</i>
Goal 1: Enhance academic excellence Objective 4: Design and enact transformative graduate experiences that develop future leaders and scholars.	Move the New Pathways to Teaching in New Jersey Alternate Route program completely online	We will work closely with the academic director of New Pathways, Dr. Muriel Rand, and ensure that all four semesters of the program are 100% online.	Work with the Department of Online Learning, Registrar and faculty to ensure everyone is included in the communication about moving New Pathways 100% online.	During the 2018-2019 academic year, this outcome was achieved and New Pathways is now 100% online.	Since over 90% of New Pathways candidates teach full-time, the move to an online format allowed students to complete the program on a more flexible schedule.	We will work with the Department of Online Learning to improve the instructional design and online support related to each section of New Pathways.
Goal 2: Enhance resources and the University's capacity to achieve vision. Objective 2: enhance and diversity revenue streams	PELL will launch three new non-credit programs either on-line or in-person	We will identify potential partners and work through the agreements required to launch a new program on a monthly basis.	Identify relevant alumni, faculty or community partners, interested in launching a new non-credit program.	During the 2018-2019 academic year we launch three new programs: 1)Community Music School 2)Walking Tours and 3)Public Safety	There is a need to offer and develop new non-credit programs that serve currently underserved populations.	We will continue to identify new non-credit programs and have three additional opportunities currently pending.
Goal 3: Enhance resources and university's capacity to achieve mission Objective 2: Enhance revenue streams	\$1.3 million in PELL unit gross revenue for all non-credit classes	We will track gross revenue at the end of each quarter to measure progress	Completely redesigned web site Enhanced collaboration efforts Introduced new courses	During the 2018-2019 academic year we had a gross revenue of \$1.3 million	With New Pathways moving online and the introduction of new non-credit programs, PELL serves a key role in enhancing revenue streams for the university	We will continue to look for new ways to market the many different programs we offer.
Goal 4: Strengthen NJCU identify, brand, reputation, and connections with the community	Establish 10 new relationships with community members.	We will monitor the number of community partnerships throughout the year.	Launched customized training program Pursue collaborative research agreements	During the 2018-2019 academic year we maintained over 300 strategic partnerships with school districts,	As PELL continues to enhance its spectrum of offerings we continue to partner with relevant	We continue to look for new opportunity to expand our community network throughout the year.

Outcomes Plan and Semester Report

Department/Program/College: Office of Research, Grants and Sponsored Programs

Academic Year: 2018-19

Prepared by: Dr. Ashok Vaseashta, Executive Director – ORGSP and Research Compliance

Date: 08/02/2019

<u>Link to Strategic Plan:</u> Goal and objective from strategic plan	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
<p>Goal 1: Enhance Academic Excellence</p> <p>Objective 1: Advance faculty excellence in teaching, scholarship, and service. Objective 3: Develop and implement a signature NJCU undergraduate experience that develops lifelong learners. Objective 4: Design and enact transformative graduate experiences that develop future leaders and scholars.</p>	<p>1. To provide resources, guidance, and support to campus wide faculty supporting their individual research through competitive funding processes. Evidence shows that including research in curriculum (RE: CUR) enhances retention and graduation. Furthermore, inclusion of research is likely to their disciplines and connecting research towards the development of new programs and eventually success of the NJCU students. G1, O1, O3.</p> <p>2. To provide guidance in developing Research Experience for Undergraduate (REU) grant proposals, as a resource to develop lifelong learners. This approach will also provide pathways for some innovative courses and programs. G1, O3.</p> <p>3. Objective 4 is more applied to doctoral students in Education Technology and Professional Security Studies. Changes in Institutional Review Board procedure and guidance will be helpful in their studies and applicable for their leadership and/or scholarly roles. G1, O4</p>	<p>1. Measurement rubric - Increase Y2Y number of submitted grant proposals by faculty, more specifically new faculty. Strategic Caveat: New time and effort policy is being articulated. If implemented, it will assist with compliance and more release time for faculty working on grants. Strategic caveat: There is mismatch in expectation, assigned responsibilities, and available resources. Operational caveat: Most university require that faculty are required to submit at least 2 grant proposals/year. The idea has been proposed but it is yet to be implemented. If implemented, it will lead to a significant increase in research grant activity on campus. Operational caveat: There is large delay in processing requests with the office of CFO. This puts office in out of compliance mode.</p> <p>2. Measurement rubric - Increase of REU efforts on campus, leading to development of new and innovative courses on campus. Caveat: Mentioned as above.</p> <p>3. Measurement Rubric – Increase in overall external grant funding. Caveat: Stated as above.</p> <p>4. Measurement Rubric – Increase in y2y funding using new and innovative funding mechanisms. Caveat: Stated as above.</p>	<p>1. Conducted a workshop (May 2018) inviting funding agencies to the campus. The highlight of the conference was One-on-one interaction, learning requirements of the government, whom to contact, and a lot of guidance. Over 200 persons attended the meeting.</p> <p>2. ORGSP is scheduling “Research Day on Campus” in November 2019. ORGSP plans to engage invited speakers from NASA, NSF and NAS on campus along with an updated format.</p> <p>3. Frequently informing faculty of funding opportunities from various funding sources.</p> <p>4. Reorganize office of grants and sponsored programs to provide efficient, streamlined, and consistent support that is consistent with federal guidelines. Put more emphasis on compliance to enhance probability of success.</p> <p>5. Write Policy and Procedure manual – all to provide clear, concise and transparent guidelines to faculty.</p> <p>6. Communicate directly with faculty about new and innovative funding opportunities, such as contract mechanism and private partnership.</p>	<p>From the Office of Research Grants and Sponsored Programs, overall funding from competitive, discretionary and foundation-based grant activity is as follows:</p> <ul style="list-style-type: none"> Total portfolio: \$12M. 2018-19 Amount: \$4.2M Total faculty/staff effort: 26 applications. Funding applied for \$5.5M. <p>The largest increase in funding is in discretionary grants. In addition to increasing discretionary grant activity, the primary objective remains to enhance competitive grant activity by new faculty and research active faculty.</p>	<p>The emphasis is to encourage faculty to submit more competitive grants. Discretionary grants are typically submitted at the institutional level. Using strategic methodologies, the office intends to enhance NJCU’s research platform. Engaging in the state-of-the-art research has direct consequence in excellence in teaching, scholarship and service, including retention and graduation. The data also shows that a policy must be instituted to promote research activity on campus. A combination of approaches, viz. implementation of time/effort policy (allowing faculty time to conduct research) and mandatory requirement of grant proposal submission, as part of tenure/promotion portfolio, will be needed to get to the next stage. It is further proposed that ORGSP be expanded in authority to apply for larger institutional grants.</p>	<p>Actions: Staff the ORGSP with pre and post award coordinators. Conduct Research Day on Campus at least once a semester. Engage external speakers and invite funding agencies on campus. Informing faculty of funding opportunities from various sources. Subscription to several databases to stay current with funding opportunities. Continue to bring ORGSP in compliance in terms of IRB, Bio-Safety, Time/effort policies, adherence to forms, and other compliance related issues to provide efficient, streamlined, and consistent support that is consistent with federal guidelines. Put more emphasis on compliance to enhance probability of success. Write Policy and Procedure manual – all to provide clear, concise and transparent guidelines to faculty. Communicate directly with faculty about new and innovative funding opportunities, such as contract mechanism and private partnership.</p>

Outcomes Plan and Semester Report

<u>Link to Strategic Plan:</u> Goal and objective from strategic plan	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
<p>GOAL 2 Achieve student success: academic, personal, and social</p> <p>Objective 1: Graduate academically accomplished individuals with expertise in their discipline and in the university-wide outcomes of critical thinking, written and oral communication, quantitative literacy, information and technology literacy, and responsible citizenship in a culturally complex world.</p> <p>Objective 2: Advance students' social and personal development.</p> <p>Objective 3: Increase retention and degree completion for all students.</p> <p>Objective 4: Enroll a diverse student body that will succeed at NJCU and beyond.</p>	<p>There is direct evidence of strong linkage between research activities of a University faculty with the student outcomes of critical thinking, written and oral communication, quantitative literacy, digital and technology literacy, and responsible citizenship. By developing these critical resources, ORGSP aims to link the outcome with student success, viz: academic, personal and social. These outcomes are also directly linked to retention and degree completion.</p> <p>By enhancing diversity (such as student population, ideas, disciplines, etc.) as broad impact statement, ORGSP aims to increase funding stream. This includes funding mechanisms specifically designed for minority – including female, physically challenged, veterans, and other federally classified minority designation.</p>	<ol style="list-style-type: none"> 1. Measurement rubric - Increase Y2Y in number of submitted grant proposals by faculty (more specifically new and research active faculty) and staff – including administrators. 2. Measurement Rubric – Increase in overall external grant funding by faculty designed for minority engagement, and also by minority faculty designed to enhance diversity and inclusion on campus. 3. Measurement Rubric – Increase in overall external grant funding. Poll faculty using research in their core curriculum and link retention and graduation Y2Y. 4. Measurement Rubric – Increase in Y2Y funding using new and innovative funding mechanisms. Poll faculty for diversity. 	<ol style="list-style-type: none"> 1. Conduct Research Day on Campus. Engage external speakers and invite funding agencies on campus. 2. Frequently informing faculty of funding opportunities from various sources. 3. Reorganize and staff ORGSP to provide efficient, streamlined, and consistent support that is consistent with federal guidelines. Put more emphasis on compliance to enhance probability of success. 4. Write/update Policies and Procedure manual – all to provide clear, concise and transparent guidelines to faculty. 5. Communicate directly with faculty about new and innovative funding opportunities, such as contract mechanism and private partnership. 6. Enhance diversity in grantsmanship and target opportunities especially engaging minority faculty participation. 	<p>A distribution of total intellectual property submitted during 2018-19 cycle are listed below.</p> <p>6 Foundation 2 Contracts 9 Competitive 4 Sub-awards 5 Discretionary</p> <ul style="list-style-type: none"> • Total portfolio: \$12M. • 2018-19 Amount: \$4.2M • Total faculty/staff effort: 26 applications. • Funding applied for \$5.5M. 	<p>Some of the new strategies need to be implemented to reach the next stage, viz.</p> <ol style="list-style-type: none"> 1. Implementation of time/effort policy. 2. Implementing mandatory grant submission policy. 3. Incentivizing faculty/staff for intellectual accomplishments. 4. Database of Faculty Research Expertise. 5. Development of new policies and procedures. 6. Updating IRB (done, including of CITI). 7. Developing IACUC. 8. Developing ORI policies - were developed recently and are being revised before the new academic year. It is anticipated that with implementation of new strategies, policies and procedures and developing national and international collaborations will be beneficial to the university to meet our strategic plan. 9. Squaring mismatch of expectation, resources and assigned responsibilities. Expanding scope of ORGSP to be able to submit institutional grants. 	<p>Actions planned for the 2019-20 AY.</p> <ol style="list-style-type: none"> 1. More focused grants writing workshops. 2. Gathering of more information – since research interest at NJCU are diverse. 3. Subscription to several databases for information. 4. Developing research collaborations and partnerships. 5. Encouraging faculty to engage more students in research. 6. Developing research activities which will be integrated with curriculum. 7. Seeking private-partnership to engage students in research. This will provide students with internship opportunities and is consistent with Universities strategic plan for experiential learning.

Reorganize and staff ORGSP to provide efficient, streamlined, and consistent support that is consistent with federal guidelines. Put more emphasis on compliance to enhance probability of success. 4. Update Policies and Procedure manual – all to provide clear, concise and transparent guidelines to faculty. 5. Communicate directly with faculty about new and innovative funding opportunities, such as contract mechanism and private partnership. 6. Enhance diversity in grantsman-ship and target opportunities especially engaging minority faculty participation. 	<p>Office of Research Grants and Sponsored Programs aims to enhance non-tuition-based revenue from grants/contracts/sub-awards. AY 2019-20 competitive grants were submitted as Foundations (since several Foundations accept competitive grant proposals – such as Bill Melinda Gates, Robert J Wood Foundation, Johnson & Johnson, Mockingbird ...).</p> <p>Since early this year, international outreach for research grants was initiated. Research collaboration with Moldova, Israel, Romania, Turkey, and Bulgaria were initiated. MOUs are pending. This will allow opportunity for NJCU to expand to ESF and H2020 – both European platforms for research funding.</p>	<p>Since the inception of this new strategy, limited grants were submitted as we await response. It is anticipated that to meet strategic plan to enhance resources and the University's capacity to achieve vision, extending NJCU's outreach to Foundations (both CONUS and OCONUS), research agencies (CONUS and OCONUS), and private partnerships is likely to enhance NJCU's non-tuition-based revenue, positively impacting scholarship on campus.</p>	<p>Due to enhanced competition in research grants, it is critical that that we seek strategic ways to support scholarship on campus. The methods that will be taken for continuous improvement, as provided in results and analysis, are:</p> <ul style="list-style-type: none"> Outreach to Foundations (both CONUS and OCONUS) Research agencies (CONUS and OCONUS) Private partnerships Travel is necessary and is anticipated for several meetings to network with funders – both CONUS and OCONUS.

Outcomes Plan and Semester Report

<p>GOAL 4: Strengthen NJCU identity, brand, reputation, And connections with the community</p> <p>Objective 1: Re-imagine and implement a new public image of NJCU as a diverse urban university of distinction.</p>	<p>In addition to teaching excellence, to strengthen NJCU identity, brand, and reputation, ORGSP aims to enhance research footprint by engaging faculty with new research directions, ideas, and providing them with resources necessary to succeed. Success of ORGSP is measured normally by number of grants proposals submitted in a given year. In fact, the success of ORGSP depends on new research directions, indirect impact on new programs, students succeeding in higher education, and number of scholarly publications. With new appointment of the Executive Director, OGSP, the indirect outcomes will also be measured to generate a composite outcome.</p>	<ol style="list-style-type: none"> 1. Measurement rubric - Increase (year to year – Y2Y) in number of submitted grant proposals by faculty, more specifically new and research active faculty. 2. Measurement Rubric – Increase in overall external grant funding by faculty designed for minority engagement, and also by minority faculty designed to enhance diversity and inclusion on campus. 3. Measurement Rubric – Increase in overall external grant funding. 4. Measurement Rubric – Increase in Y2Y funding using new and innovative funding mechanisms. 	<ol style="list-style-type: none"> 1. Periodically conduct Research Day an NJCU . Engage external speakers and invite funding agencies on campus. 2. Frequently inform faculty of funding opportunities from various sources. 3. Reorganize and staff ORGSP to provide efficient, streamlined, and consistent support that is consistent with federal guidelines. Put more emphasis on compliance to enhance probability of success. 4. Write Policies and Procedure manual – all to provide clear, concise and transparent guidelines to faculty. 5. Communicate directly with faculty about new and innovative funding opportunities, such as contract mechanism and private partnership. 6. Enhance diversity in grantsman-ship and target opportunities especially engaging minority faculty participation. 	<p>The number of competitive grants submitted during 2017-18 cycle are listed below.</p> <p>6 Foundation 2 Contracts 9 Competitive 4 Sub-awards 5 Discretionary</p> <ul style="list-style-type: none"> • Total portfolio: \$12M. • 2018-19 Amount: \$4.2M • Total faculty/staff effort: 26 applications. • Funding applied for \$5.5M. <p>Most of the grants were prepared to enhance minority participation as a means to achieve and enhance diversity and inclusion.</p> <p>To meet NJCU’s strategic plan – Strengthen NJCU identity, brand, reputation and connection with community – it is anticipated that by enhancing competitive research grants, we can strengthen NJCU’s identity. An effort to gather a list of scholarly publications resulting from such grants is another way to strengthen identity and reputation. By strengthening identity and brand – directly impacts positively community engagement.</p>	<p>There is a finite improvement in research and scholarship. Some of the new initiatives will take some time for successful implementation. Provided there is enough staff, the ORGSP intends to gather information on publications by faculty/staff resulting from grants. This will ne another indicator of NJCU identity brand, and reputation. Most research platforms such as Google scholar, Researchgate, and Academia.edu have university impact factor. ORGSP will start listing NJCU impact factor from such portals.</p>	<p>Actions mentioned earlier – such as</p> <ol style="list-style-type: none"> 1. Conducting research Day at NJCU. 2. Dissemination of research opportunities 3. Outreach to: <ol style="list-style-type: none"> 1. Foundations (both CONUS and OCONUS) 2. Research agencies (CONUS and OCONUS) 4. Private partnerships 5. Working with faculty to integrate research in their curriculum 6. Engaging students in research. <p>A combination of all of these measures will be necessary to meet goals and objectives to strengthen NJCU identity, brand, reputation and community engagement.</p>

<u>Link to Strategic Plan</u>	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Action plan should stem from result and analysis
<p>Strategic Plan Goal 2 Achieve Student Success: Academic, Personal, and Social</p>	<p>Goal 1: Improve the availability of note taking support to students with disabilities who require note taking assistance as a reasonable accommodation by offering Sonocent software to 25 students.</p>	<p>Measures: In the Fall 2018 semester, 25 students will be invited to utilize Sonocent software instead of shared notes. 90% of all students who require note taking assistance will report satisfaction with the quality of notes they receive.</p>	<p>Strategies: Students utilizing Sonocent Software will respond to a brief series of questions to monitor their use and satisfaction with Sonocent.</p>	<p>In the Fall 2018 semester, 13 students utilized Sonocent software and 60 students utilized shared notes. In the Spring 2019 semester, 22 students utilized Sonocent and 54 students utilized shared notes. Of the 22 students who utilized Sonocent in the Spring 2019 semester, 6 responded to the survey. All 6 stated that the note taking app (Sonocent) helped them to learn better and that they would be interested in using the software in the future. No response was received from students who utilized shared notes in the Spring 2019 semester. Emails were sent and phone calls were also made.</p>	<p>The majority of continuing students preferred the use of shared notes, although we did see an increase in usage of Sonocent from 13 students in the fall to 22 in the spring. Survey results showed that 82% of students were satisfied with the timeliness of having a note taker assigned, 77% of students were satisfied with the timeliness of receipt of notes, and 78% reported satisfaction with the overall quality of notes received in the fall semester. A score of 3 or higher on a 5-point scale indicated satisfaction. Students reported requesting note takers for between 1 and 5 courses, with an average of 3.4 courses. 50% of students received all note-takers requested. Of the 60 students who requested shared notes, 22 responded to the survey in the Fall 2018 semester.</p>	<p>A capital request was submitted for FY20 to purchase a 5-year license for Sonocent Software (25 users per year).</p>
<p>Strategic Plan Goal 2 Achieve Student Success: Academic, Personal, and Social</p>	<p>Goal 2: Increase course success and the number of Supplemental Instruction (SI) sessions attended by students enrolled in gatekeeper Biology and Chemistry courses.</p>	<p>Measures: Students attending 10 or more SI sessions in gatekeeper Biology and Chemistry courses will achieve a higher average course grade than students attending 4 or less sessions.</p>	<p>Strategies: EAB will be utilized throughout the semester to remind/notify/encourage students to attend SI sessions.</p>	<p>Students who attended 4 or less sessions in the Fall 2018 semester, received a final average grade of 2.4. Students attending 10 or more SI sessions, received a final average grade of 2.95. In the Spring 2019 semester, students who attended 4 or fewer SI sessions received an average grade of 2.27. While students attending 10 or more sessions, received a final average grade of 3.17.</p>	<p>Students who took advantage of the scheduled SI Sessions and regularly attended these sessions had a 24% higher grade than those who attended 4 or fewer sessions. EAB and Blackboard were used to remind students to attend scheduled SI sessions.</p>	<p>Actions will be taken to increase awareness of SI including expanding our presence on social media, and implementing a new marketing campaign focused on the impact of SI on students' grades. The introduction of the role of SI Mentor, will increase exposure of the program and availability of SI sessions, while increasing attendance.</p>

New Jersey City University

<u>Link to Strategic Plan</u>	<u>Outcome:</u> Defined in observable, measurable language	<u>Assessment/Measures and Target Performance Levels:</u> The method used gather evidence/data	<u>Strategies to Achieve Target Performance Level</u>	<u>Result:</u> Data results	<u>Analysis:</u> Interpretation of meaning of data results	<u>Action Plan:</u> Explanation of actions that will be taken for continuous improvement. Strategic Plan Goal 2 Achieve Student Success: Academic, Personal, and Social	Goal 3: Provide Supplemental Instruction in developmental math courses.	Measures: 75% of students who attend 10 or more SI sessions for the Developmental Algebra course will achieve a passing grade.	Strategies: Schedule SI sessions for 18 sections of Developmental Algebra courses.	In the Fall 2018 semester, 92% of students who attended 10 or more SI sessions achieved a passing grade. In the Spring 2019 semester, 82% of students who attended 10 or more SI sessions achieved a passing grade.	Attendance at Math SI sessions, provided an opportunity to review exercises presented in class. The impact of SI is reflected in the percentage of students receiving a passing grade.	We will continue to offer SI in all sections of Math 96/106 and Math 98. Students will be registered for SI when they register for classes. This practice will avoid potential conflicts enabling students to attend the SI sessions attached to the sections of math courses in which they are enrolled.
Strategic Plan Goal 2 Achieve Student Success: Academic, Personal, and Social	Goal 4: Increase the number of trained SILs with a specialization in Mathematics. Seven students will be trained.	Measures: Seven students will be recruited and trained in the UMKC SI model.	Strategies: Additional strategies with a focus on math content will be added to the SI Training Workshop.	Eight students were recruited and attended/trained at SIL workshops. During this training, active learning strategies were demonstrated and rehearsed. The One minute paper, Jeopardy, Boardwork, and Math vocabulary strategies were incorporated in the training.	An increase in Supplemental Instruction math courses led to recruiting, interviewing, and training additional SILs. The fall and winter training workshops enabled us to hire SILs to cover all sections of Math 96/106 and Math 98.	We will be training and hiring three SI mentors to assist new SILs in the Fall 2019 semester.
