

GECAP Report to the NJCU Senate on March 21, 2022

The spring 2022 assessment work in Civic Engagement is proceeding. Soon selected committee members will participate in the American Association of Colleges and Universities (AAC&U) professional development and certification as an evaluator.

The committee is still short a member from the College of Education and we encourage new members to volunteer. Members may have access to continued professional development in assessment and evaluation.

Dr. O'Connor is outlining an analysis of the Gen Ed program with regard to course scheduling and distribution of LOs, in addition to determining our alignment with MSCHE guidelines in anticipation of our next review

Respectfully submitted for the committee,
Theresa Spataro, Chair GECAP
