

LAST WEEK AT AHM

NEWSLETTER

VOLUME 3

Dance Program

Our students have already started learning their dance for the spring performance. Their Nai Ni Chen dance instructors, Ethan and Grace always make sure our students have fun while learning the choreography.

Book Buddies

Our Book Buddy Program has continued. Student volunteers choose books to read to their friends in other classrooms.

Music Therapy

Music therapy allows our students a fun way to work on skills such as communication and turn-taking, as well as sensory exploration and relaxation.

Fine Art

The joining of Art and Music provides our students new ways to express themselves.

Key Club

After campaigning and making speeches, we have our new Key Club Officers! Congratulations to all who participated!

Science & Tech

All of the students were introduced to Augmented Reality while learning about the solar system.
