*Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms, and conditions. Withdrawals or transfers out of the IncomeFlex Target Fund proportionately reduce guaranteed values prior to locking in. After Lock-in, withdrawals or transfers out of the IncomeFlex Target Fund in excess of the Lifetime Annual Withdrawal Amount will reduce future guaranteed withdrawals proportionately and may even eliminate them.

YOUR FUTURE IN FOCUS

The Prudential Day OneSM IncomeFlex Target[®] Balanced Fund was designed for use with Prudential IncomeFlex Target, an in-plan guaranteed retirement income product, and is available as an insurance company separate account under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT. PRIAC does not guarantee the investment performance or return on contributions to the separate account. PRIAC is solely responsible for its financial condition and contractual obligations. Availability and terms may vary by jurisdiction, subject to regulatory approvals. Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms and conditions. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Contract form #GA-2020-TGWB4-0805-NJ.

GoalMaker is an optional tool and available at no additional cost. GoalMaker's model allocations are based on generally accepted financial theories that take into account the historic returns of different asset classes. But, of course, past performance of any investment does not guarantee future results. Participants should consider their other assets, income and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to their interest in the plan, to the extent those items are not taken into account in the model. Participants should also periodically reassess their GoalMaker investments to make sure their model portfolio continues to correspond to their changing attitudes and retirement time horizon.
