NEW JERSEY CITY UNIVERSITY

Department of Information Technology

Apple OS:

These instructions will assist in connecting your Apple OS based iPhone, iPad and iPod device to the NJCUWifi network. Please note these instructions are for reference only, and some devices might have varying themes, menu options and might require less or additional steps to be taken to connect.
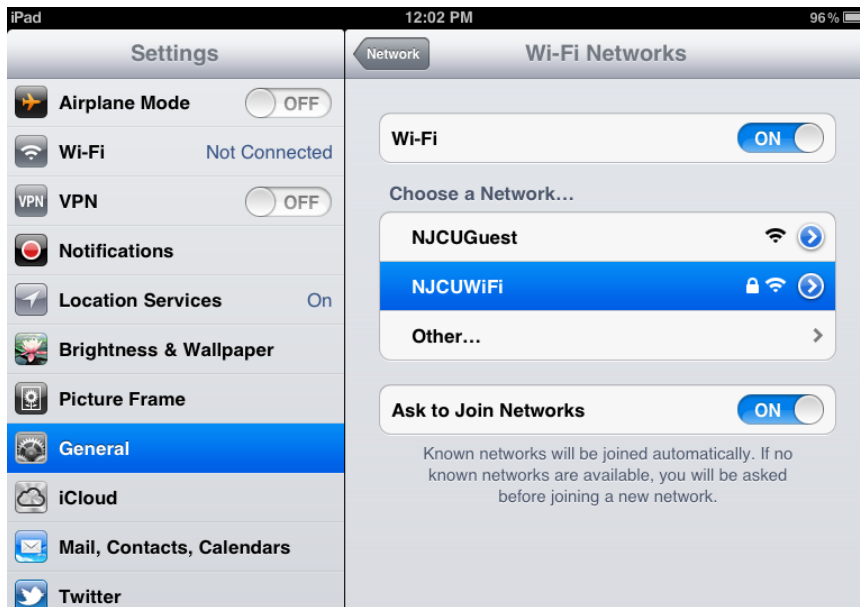

1. Open the "Settings" menu on your device. Click on "General" and "Network"
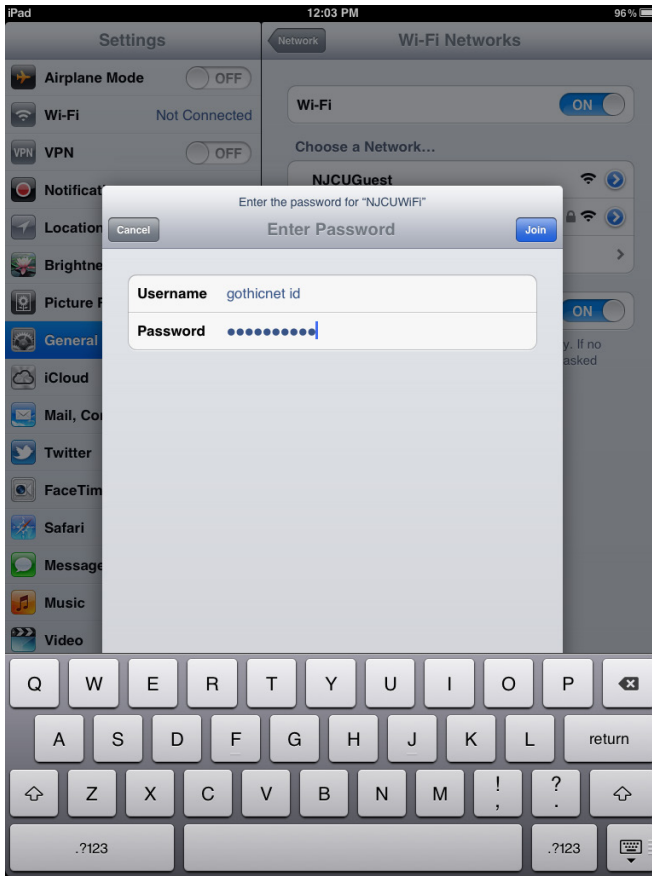

2. Select the Wi-Fi properties under the general "Networking" Menu.

3. Connect to the "NJCUWifi" Network. This is the Wi-Fi network for NJCU Faculty Staff and Students. If you are a guest, please refer to the instructions on "NJCUGuest" wireless access.

4. Enter your GothicNet credentials and click "join."

5. "Accept" the Certificate.

6. You are now connected to the "NJCUWifi" Network.

If you require additional assistance, please submit your help request through our online WiFi Help Form.
